ART SMART

Last week an Art Smart Workshop was held at our school. Amelia, Felicity, Seth, Charlie and I went for the three days. Mr Hoile was our teacher and he taught us how to draw realistic birds and flowers. The theme was ‘Karcho Ga’ where you draw birds and nature.

HOW TO MAKE A SAMURAI HELMET
BY KENNETH AND BIEGA

Step 1:
Position your square piece of paper in the shape of a diamond. Make sure that the coloured side is down.

Step 2:
Fold it in half.

Step 3:
Turn the triangle upside down so the top point is at the bottom.

Step 4:
Fold the two upper corners to the bottom point (it should be the shape of a diamond).

Step 5:
Fold the first two bottom flaps so their points are at the top of the diamond.

Step 6:
Fold the top corners (the ones you just paired with the top of the diamond) and fold them back or outwards.

Step 7:
Fold the first bottom flap up about half-way in between the two flaps you folded in the last step.

Step 8:
Fold the bottom edge of the previous fold up a little bit.

Step 9:
Fold the remaining bottom flap to the back.

Step 10:
Squeeze the two edges to open the helmet.
Miss Morgan is one of the best teachers! She is helpful to everyone and is a nice person to be around. She is funny and she cracks everybody up. She has the best personality and she comes to school everyday happy and smiley. Miss Morgan is AWESOME!
